Summary

Motivated Frontend Developer seeking a challenging position in a growth-oriented company. Skilled in HTML, CSS, and JavaScript, with a passion for creating engaging and user-friendly web experiences. Strong communication and teamwork abilities, committed to continuous learning and contributing to innovative organizational success in on-site, remote, or hybrid environments.

EXPERIENCE

Hume Volve Company

Nov. 2025 - Dec. 2025

Angular Developer Intern

Remote, Egypt

- Developed components for a **doctor appointment project** using Angular 20, including Authentication, Payment, Reviews & Rating, and Chat, while collaborating with an Angular team and integrating backend APIs.
- Built the **Foodify project** using Angular 17 with standalone feature-based components, full backend API integration.
- Delivered two technical sessions for other interns covering Signals, Services, HttpClient, and Interfaces.

Venusera Company

Sep. 2022 – Oct. 2022

Frontend Developer Intern

Remote, Egypt

- * Contributed to **Ratesland**, a travel booking platform, by developing and maintaining core UI pages, collaborating with the engineering team, and gaining hands-on experience with software engineering principles.

EDUCATION

Helwan University

Sep. 2019 – Jun. 2023

Bachelors degree in Computers and Artificial Intelligence

Cairo, Egypt

Medical Informatics Department.

- * Cumulative GPA: 3.66 [Excellent with Honor]

SKILLS

Web Development: HTML, CSS, JavaScript, ES6, TypeScript, REST APIs, Bootstrap5, SCSS, Tailwind, RxJS, Angular.

Other: Git, Object-Oriented Programming, Data Structures, Algorithms, UI/UX principles, Figma, Swagger, Postman.

PROJECTS

Foodify - Explore Website

- * Developed a scalable full-featured e-commerce web application using Angular 17 with secure authentication, optimized performance via lazy loading, robust state management, and deployment on Vercel.

Shop Easy - Explore Website

- * Developed an e-commerce web application using Angular 16 with Firebase for product storage, hosting, and authentication, implementing lazy loading and route guards to ensure high performance and secure user access.

Cinema 4U - Explore Website

- * Developed a movie and TV discovery web application using The Movie Database (TMDb) and OMDb APIs, featuring search, category filtering, ratings, actor details, watchlist functionality, and modern TV show exploration.

Automated Insulin Pump System and Nurse System

- * Collaborated with a development team to build a real-time Automated Insulin Pump and Nurse Monitoring System using Angular 13 and Firebase, enabling live patient monitoring and secure data synchronization.

Achievements

Completed Course: Angular - The Complete Guide (Edition 2025) by Maximilian Schwarzmüller.

Codewars: Ranked 6 kyu, showcasing advanced coding and problem-solving abilities.
